

2024 Riesling dry Nahe

Origin:

From grapes from our vineyards in Bad Kreuznach, grown on Nahe gravel with a high quartzite content combined heavy clay soils with a high lime content.

Vinification:

After the harvest and a short maceration period to extract aromatics, the grapes are gently pressed, and the must is then fermented in stainless steel tanks. The young wine rests on the full lees until spring of the following year.

Character:

Dynamism and clarity characterize this Riesling. Classic citrus aromas like lime paired with subtle herbal notes and perfectly balanced acidity provide excitement and drinking-flow.
