

2024 „Quarzit“ Weissburgunder dry Nahe

Origin:

From grapes from our Pinot Blanc vineyards in Bad Kreuznach on the Nahe River, characterized by Nahe gravel with a high quartzite content.

Vinification:

After the harvest, the Pinot Blanc rests on the skins for 12 hours to extract the constituents from the grape skins. The grapes are then gently pressed, and the must fermented in stainless steel tanks. The young wine rests on the full lees until spring of the following year.

Character:

Aromas of local tree fruits, slightly tropical and nutty, with robust minerality. Very elegant and silky.
